

## Trading Groups Decision

Investment company Limit Prime Securities AD Podgorica decided to determine groups for trading contracts for differences on the Metatrader 5 platform as follows:

- Standard - basic group without a minimum amount of money
- Silver with a minimum cash amount of \$ 1,000.00
- Gold with a minimum cash amount of \$ 10,000.00
- Platinum with a minimum cash amount of \$ 20,000.00

In order for the client to be able to trade, it is necessary to pay at least € 100, which will automatically classify him in the Standard trading group.

Limit Prime Securities does not charge a commission for any of the trading groups, i.e. a commission for opening and closing positions.

The overnight roller fee (SWAP) is the same for all groups.

Trading groups differ because they have different SPREAD, whereby by paying a larger amount of deposit and moving to the next group, the client has a more favorable SPREAD for trading with Limit Prime Securities.

In order for the client to move to the next group, he needs to reach the Equity on his Metatrader trading account as stated above.

Metatrader accounts will be reconciled with the appropriate group every working day and only once a day in the period between 8 am and 11 am, and the Equity on client Metatrader accounts will be monitored at the end of the previous day. If the amount of the clients Equity on an individual Metatrader account is reduced by more than 10% of the amount anticipated for that group, the client will move to a lower group. Likewise, if the client's Equity reaches the amount needed for the change, i.e. moving to a larger group, the client will move to a larger group.

These rules come into force and apply to all clients approved starting from March 2, 2022. All clients approved by 02.03.2022. who acquired certain trading conditions and the trading group, will not be transferred to worse conditions, but they can move to a better trading group.
