Trading with oil and indices will continue under the same conditions as it was until now only with futures prices.

A more detailed explanation regarding the changes to the conditions of trading with these symbols will be sent by May 25, 2023.

In order to be able to see all the symbols and trade with them, you need to right-click on one of the symbols in the market watch and select show all, and that way you will see all the symbols available for trading. Symbols where positions can only be closed will be marked in black.
