
Announcement

Dear clients,

We inform you that Investiciono društvo Limit Prime Securities AD Podgorica will have a price correction in the system in such a way that instead of 4 decimals, trading prices will have 2 decimals for the following products:

- Coffee_Roll
- Wheat_Roll
- Corn_Roll
- Soybean_Roll

Due to the above-mentioned change, the company will have the following changes:

- The prices traded will be instead of 4 decimals, they will have prices with 2 decimals, that is why the trading prices will be 100 times higher
- The minimum lot amount that can be traded with will be 0.01 lot

Important note

All positions that remain open on Friday after the end of trading hours will be transferred to new symbols, with new prices, in such a way that the old position will be closed with a loss/profit of 0, and a new position will be opened with the client's opening price multiplied by 100, where the quantity will be divided by 100, so that the value of the client's position remains the same and that this change does not affect the amount of the client's free margin, nor the profit or loss during trading.

All the above mentioned changes will be made in the period between Friday (after the end of trading hours with these products) and Sunday (before the start of trading hours with the mentioned products).
